Claim 18 is rejected under 35 U.S.C. 102(b) as being anticipated by Ayers et al, WO 2002- 091988 cited by applicants. It discloses at p. 60 and 61 the instant salts of a dibasic organic acid and the amines of formula I of claim18. The succinic and L-tartaric acid slats, etc. are synthesized in crystalline form by adding 2S,3R-isopropylidinedioxy-4-S-methoxymethyl-1-R-amine to a stock solution of the dibasic salt.

Claim 18 is rejected under 35 U.S.C. 103(a) as being unpatentable over Ayers et al, supra.

The tribasic organic acid salts of the above amine are considered to be obvious in view of the synthesis of many salts of the monobasic and dibasic organic acids and the instant amine by the reference.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bernard Dentz whose telephone number is 571-272-0683. The examiner can normally be reached on Mon-Fri from 8 to 4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Janet Andres, can be reached on 571 272-0867. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through

10/584,848 Art Unit: 1625

Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
